MARSHALL CROW: My name is Marshall,

6 I've heard everybody speak here tonight, and

7 I understand the psychology behind all of it. They're

8 being raped, outright being raped, and I don't -- I pity

9 the woman who has to go through this, and I pity the

10 state for what it has to go through because it doesn't

11 have the political clout, but they do have the emotion

12 and they do know what they feel, and I pity the poor fool

13 at the first accident you guys have. What happens after

14 that is all on your shoulders because you're going to

15 feel the vengeance of the people. Bin Laden ain't got

16 nothing on us. We'll have it on you, and that's my

17 opinion and I'm standing on it.
